

About HTAi

- International network of those working to advance and promote Health Technology Assessment (HTA).
- The Society was established in 2003 and is based in Edmonton, Canada.
- Open platform for global collaboration that leverages our shared and collective intelligence to improve health outcomes worldwide.
- Member driven organization governed by a Board of Directors, comprised of leading HTA experts from around the world.
- Large number of active members from 65 countries and representing 82 organizations
- In our quest for better health decision making, we recognize the contributions of our membership as our greatest strength. We are smarter together.
